

MARYAM FAIZ

AI Engineer | RAG & Agentic AI | LangChain & Python

Sargodha, Pakistan | maryamfaiz.genai@gmail.com

PROFESSIONAL SUMMARY

Generative AI Developer with a Bachelor's degree in Computer Science, focused on building intelligent, data-driven applications that solve real business problems. Specializes in Machine Learning, Deep Learning, NLP, and Generative AI — turning complex data into scalable, interactive, production-ready AI solutions using Python, TensorFlow, Keras, FastAPI, Streamlit, React.js, and modern LLM frameworks.

KEY PROJECTS

AI-Powered RAG Chatbot using LLMs

Built an advanced Retrieval-Augmented Generation (RAG) chatbot capable of context-aware conversations, semantic document search, and accurate AI-generated responses.

Chat with SQL & MySQL Assistant

Developed an intelligent AI agent that converts natural language into optimized SQL queries, enabling non-technical users to query databases directly.

Medical Appointment & FAQ Bot

Created a smart healthcare assistant using Streamlit that automates appointment scheduling, answers patient queries, and improves user interaction.

YouTube Chrome Extension

Chat with any YouTube video using Retrieval-Augmented Generation (RAG). Features a FastAPI backend and a custom Chrome extension for real-time, context-aware conversations.

LangGraph Chatbot

Advanced RAG chatbot powered by LangGraph and FastAPI, featuring multi-threaded conversations, a React frontend, persistent MySQL checkpointing, and native tool integration.

WHAT I OFFER

- AI & Machine Learning model development
- Generative AI & Agentic AI workflows
- RAG applications & LLM integration
- NLP-based chatbots and summarization systems
- FastAPI backend development & API integration
- Interactive web apps using Python, Streamlit, JavaScript & React.js
- Full-stack development — React.js frontend + FastAPI backend
- Clean, scalable, well-documented Python code
- Cloud deployment & hosting on AWS

CONTACT

Location: Sargodha, Pakistan

EDUCATION

Bachelor's Degree in Computer Science

Focus: AI, Machine Learning & Software Engineering

TECHNICAL SKILLS

- Python, TensorFlow, Keras
- LangChain, RAG, Agentic AI
- Machine Learning & Deep Learning
- Natural Language Processing (NLP)
- FastAPI
- Streamlit
- React.js, JavaScript
- SQL / MySQL
- LangGraph
- Git & GitHub

RATE

\$10.00 / hour

LANGUAGES

English — Professional

Urdu — Native
